Detailed Project Description and Justification:

Construction of a building for Alatna is a need of a larger meeting space. Alatna's tribal office and meeting space is inadequate for our growing population. Our existing tribal building can hardly accommodate all residents for our holiday gatherings and activities we host for all our children.

At times we have to host guests at our tribal office, and without adequate space for meal preparations and sleeping area we are planning to include in building, a kitchen and private space for guests. Alatna usually host holiday gatherings and invite our neighboring village. At times we do not have space for all that attend and our guests would either have to stand or sit on the floor. With a new tribal building we would be able to see if everyone's needs and have a place where our tribal members and associates and visiting guest would feel welcome to Alatna.

Project Timeline:

Timeline, if funded, would be eight months to a year to do floor plan and ordering of material. Expenditures will occur after this project is funded and hiring process is conducted, and actual construction begins.
